We discussed at bc mtg this morning. Joan will be asking you to meet with jason and sam and get the data to them if you have anything for them to look at it from a removal perspective.

I didn't get her name.... she was extremely emotional and upset / frustrated with the State; basically, I answered the phone and she just started yelling at me. I calmed her down - - - by the time we got off the phone.

Can we talk next week about how to follow up?

Her name is in your files because she called last year about this site and the PA/SI... maybe it was a citizen's petition? It sounds more like a RCRA issue at this point... but, I think you all can help me with this... it's an OCA I believe and I guess MDEQ has not made any progress according to this woman. She also thinks they are illegally dumping hazardous waste.

Thanks,
Sharon
